Subject: Draft Response to Red Hill Section 5.4 Execution Plan
Attachments: 5.4 Execution Plan Review Comments.docx

Please find attached my suggested response to the 5.4 Execution Plan.

Please take note that the language in the AOC SOW does not clearly define deliverable expectations for this section.

Additionally, we need to discuss what our expectations are for the process of developing performance objectives of TIRM for protection of Human Health and the Environment as stated in our letter back in July.

Additionally, what are our expectations for BAPT for these improvements?

Please review my draft and let me know when you have time to discuss.

Thank you,

Steve
